View Zone 11	None	Remove some dead & dying		
View Zone 12	2 Red Oak	Selective removal for vista	succeptable to Oak Wilt	on slope
			Save the Burr Oak in area	on slope
View Zone 13	None			
View Zone 14	2 basswood	Selective removal for vista	healthy but over crowding	by Cty 2
	1 hickory	over crowded and growing into vista	healthy	by Cty 2
View Zone 15	None	Very hard to ever get a view or vista		
Total	17	11 healthy, but removal for over crowding, safety or for vista		
Trees were selectively chosen with Samantha and Dennis.				
Most selected were in poor health or for over crowding of a healthy tree.				
Trees were selected to provide vistas (viewsheds or portals)				
There will also be removal of some dead trees and some trimming.
