**Progress Report #3
Old Frontenac Historic District NRHP Nomination Update**

During November the consultants completed the preliminary first draft of the historic context narratives, and updated the draft survey forms. The total is now approximately 75, with the addition of mid-20th century properties. The preliminary draft and survey database are attached to this memo. A few additions will be sent later this week. I don't expect any comments until whenever you have time, our next call date is fine.

We remain on schedule with the draft forms and report, including historic contexts, to be ready for full HPC review in February 2022. Prior to that there will be a revised version (or two) of the historic context draft. In January you can also expect the draft forms for your review. That process could start anytime, with them sent in groups of 20 or so with an accompanying map.

We can discuss any questions you might have about the form submitted last month.
