RE:

**Progress Report #4
Old Frontenac Historic District NRHP Nomination Update**

The draft project report and nine (9) sample inventory forms were submitted to the HPC on January 10, 2022 and also sent to Mike Koop at MnSHPO via Sharefile.

We await comments and suggestions from MnSHPO on the significance section of the sample forms, as well as general comments on the draft.

As noted in the draft report, additional work on the townsite development subcontext, “Townsite Planning in Goodhue County Minnesota, ca. 1857-1878” is underway.

The February 3 call will be a good time to continue discussion of the HPC’s future review of inventory forms and plans for a spring HPC meeting and presentation.
